Katie's contemporary ceramic pendants are inspired by the patterns on forgotten fragments of broken china. She creates each piece by hand-carving her intricate designs into porcelain and decorating with stunning kiln-fired glazes.

**LIZZIE CORNELIUS**

The inspiration for my coastal artwork comes from living on the beach at Hayling Island and travelling along the many beautiful coastlines in the UK & abroad. My art is simple yet effective and I work in a naive style.

I love the process of creating original coastal art for clients often depicting special places they have visited, special family memories, their home towns, much loved pets or even Royal Navy ships.

# How the Hayling Island Arts Trail works

The Hayling Island Arts Trail is an annual art festival and open studio event, run by artists for artists, and for the community in the Borough of Havant.

All artists in the Borough are welcome to take part, and those not having studios on Hayling Island are warmly invited to exhibit at one of the multi artist venues on the Island.

We have a couple of open meetings each year to which all Hayling Island Arts Trail artists are invited. One is held in June soon after the end of Hayling Island Arts Trail to review what was good, and what needs fixing, and a planning meeting is held in September where we agree the committee and dates and deadlines for next year's Hayling Island Arts Trail.

Interested in taking part in the Hayling Island Arts Trail 2025?
